ATC®

ATC Prislista Elektronik

Eftersom alla högtalarmodeller på studiosidan är aktiva, dvs innehåller egna förstärkare, har man lång erfarenhet att bygga förstärkare.

Med denna bakgrund tog man fram egna förstärkare till sina passiva modeller, baserade på de inbyggda stegen. Detta har sedan utökats med CD-spelare och DAC mm.

Nu har man ett komplett sortiment avancerad High-End elektronik att erbjuda.

SIA2-100 Integrerad Förstärkare & CD2

SIA2-100 Integrerad förstärkare med DAC

Pris 37 995:-

2 x line level analogue inputs
3 x digital inputs: USB, Coaxial, TOSLINK
Premium AKM 32-bit DAC
USB digital input supports up to 384kHz PCM data and native DSD256*
ATC Discrete MOSFET Output Stage with 100W/Ch. Max. Cont. Power.
Headphone amp featuring discrete output stage
Compact Size - 2/3rds width
Handmade in England
6 year warranty
*DSD256 support via PC only (up to DSD128 via Mac).

CD2 CD-spelare

Pris 22 995:-

Overview
High performance TEAC CD Transport
Premium AKM 32-bit DAC
Coaxial & TOSLINK Digital Outputs
Balanced XLR and Un-balanced RCA outputs
ATC Discrete class-A output buffers
Compact Size - 2/3rds width
Handmade in England
6 year warranty*
* TWO years on CD mechanism.

SIA2-150 Integrerad Förstärkare

SIA2-150 - Integrated Amplifier
150 watts per channel. (same as P1)
Class A/B operation.
Hand built in the UK.
5 RCA inputs.
Record, sub and pre outputs.
Headphone jack.
Remote control.
6 year warranty.

Pris 52 995:-

CA2 & CDA2mk2

CA2 - Pre-Amplifier

Pris 29 995:-

Hand built in the UK.
Ultra-low noise discrete design.
5 line inputs via RCA/phono.
XLR and RCA/phono main outputs.
Additional Sub, Tape and Headphone outputs.
1 x RIAA phono input via RCA (MM/MC configurable)
6 year warranty

CDA2 - CD / DAC / Pre-Amplifier

Pris 44 995:-

Overview
All-discrete class-A pre-amplifier with balanced and unbalanced outputs.
Two analogue inputs via RCA/phononand one via 3.5mm mini-jack.
High performance CD Player.
Premium AKM 32-bit DAC.
USB digital input supporting up to 384kHz PCM data and native DSD256.*
Headphone amp featuring discrete output stage.
Handmade in England.
6 year warranty.**
*DSD256 support via PC only (up to DSD128 via Mac).
** TWO years on CD mechanism.

P1 & P2 Effektförstärkare

P1 - Dual-Mono Power Amplifier

Pris 37 995:-

True dual-mono design.

Delivers 150W simultaneously, with minimal crosstalk
Grounded source class A/B circuit topology as found in ATC's renowned active loudspeakers.

Ultra wide bandwidth, low distortion and high dynamic range ensure tonal accuracy and perfectly timed transient.

No compromise, high performance power supply and large heatsinks guarantee outstanding stability and long term reliability.
Neutral fidelity ensures excellent product compatibility.

Hand built in the UK and supported by a 6 year warranty.

P2 - Dual-Mono Power Amplifier

Pris 52 995:-

300W per channel

True dual-mono design delivers full power simultaneously from both channels, with minimal crosstalk

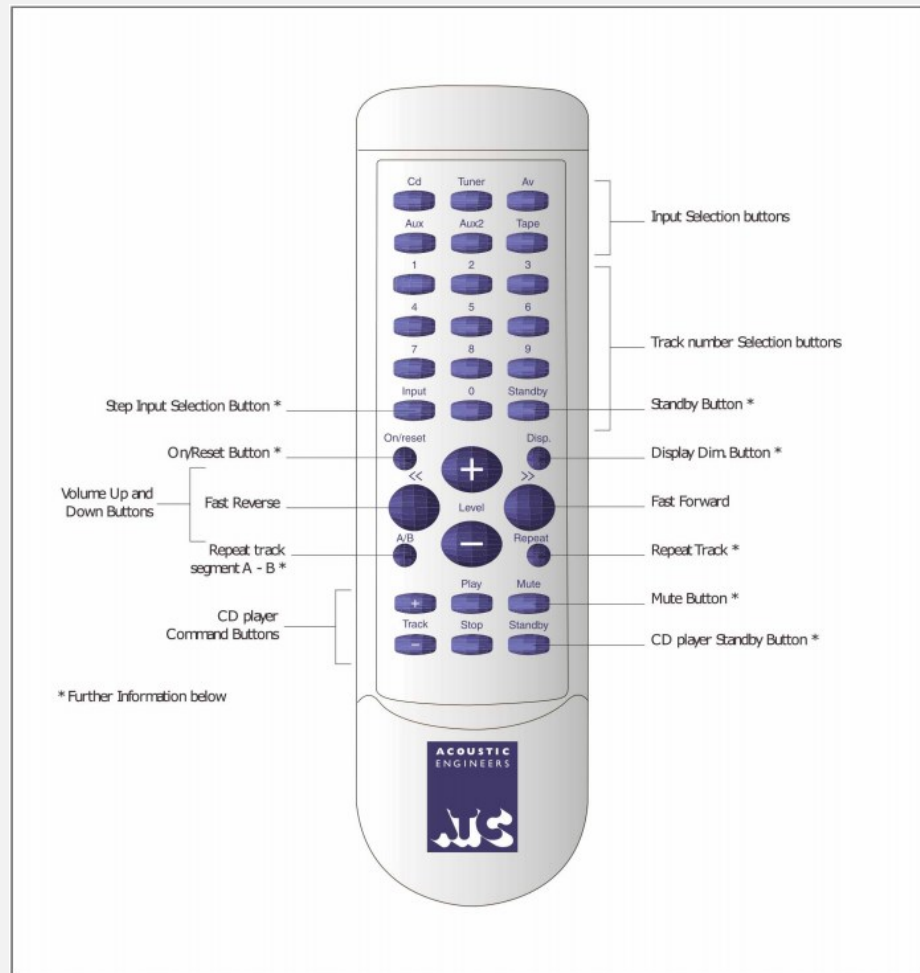

Grounded source class A/B circuit topology as found in ATC's renowned active loudspeakers

Ultra wide bandwidth, low distortion and high dynamic range ensure tonal accuracy and perfectly timed transients

No compromise, high performance power supply and large heatsinks guarantee outstanding stability and long term reliability
Neutral fidelity ensures excellent product compatibility

Hand built in the UK and supported by a 6 year warranty
